

Robin Alvarez

Engineering Manager · Portland, OR · robin@example.com · +1 555-0142 · linkedin.com/in/robinalvarez

SUMMARY

Engineering manager for a platform reliability team, five years in, with a backend background that is still close enough to the code to review a design. Owns an ingestion path and the on-call rotation over it.

EXPERIENCE

Engineering Manager · Northwind Logistics

Portland, OR · Mar 2021 – Present

- Cut weekly on-call pages from 90 to 22 by retiring alerts no team could act on and routing the rest to the owning service.
- Designed the event schema behind shipment tracking, carrying 40 million events a day across 6 services.
- Led 9 services off a shared Postgres instance onto per-service databases with no customer-visible downtime.
- Grew the team from 4 to 7 engineers over 18 months, hiring 3 and supporting 1 promotion to senior.
- Took the delivery-estimate rewrite from proposal to production in 2 quarters, shipped behind a flag with no rollback.

Senior Software Engineer · Cartwheel Software

Remote · Jun 2017 – Feb 2021

- Reduced p95 API latency from 780ms to 240ms by replacing per-request fan-out with a materialised read model.
- Built the billing reconciliation service that closed a 2% leak on subscription upgrades.

Earlier · Ravensfield Consulting

Portland, OR · Aug 2013 – May 2017

- Delivered 5 client integrations against a legacy SOAP API, each inside a fixed 6 week engagement.

SKILLS

Platform & Infrastructure: Postgres, Kafka, distributed pipelines, Kubernetes

Languages: Go, Python, SQL

Leadership: hiring, performance management, incident response, design review

EDUCATION

BSc, Computer Science · Anderson Institute of Technology

2009 – 2013
